PITTSBURGH WHITE LEAD FACTORY.

J. S. Stevenson,

IS now enabled to supply persons wanting WHITE LEAD, with any quantity of that article, either dry or ground in oil, of the best quality, and at as low prices as will be sold in the western country. The manufactory has been for some time in successful operation, and all the lead now sold is warranted good.—Persons forwarding orders may rely upon receiving prime lead, as J. S. S. holds himself responsible for the quality; and also that the price shall be as low if not lower than any persons in the western country will sell at, and materially lower than the Philadelphia price with carriage.

The subjoined certificates from all the master house painters in Pittsburgh, will satisfy distant persons of the quality:

WE CERTIFY, that the white lead made at the factory of J. S. Stevenson, is in high repute in Pittsburgh; that we find it possessed of every property to recommend it being a pure white, covering and spreading well, smoothe and free from any grit, standing its colour and the weather perfectly, and we believe there is none in the U. S. superior to it. The reputation of the manufactory is indisputable.

CONGRESS.

HOUSE of REPRESENTATIVES.

MONDAY, OCTOBER 10, 1814.

THE DESPATCHES.

The President's message enclosing the letters from our Commissioners, (published in our last) having been read,

MR. FORSYTH moved that it be referred to the committee on Foreign Relations, and that 5,000 copies be printed for the use of the members.

MR. HANSON, (of Md) moved to amend the resolution by inserting 10,000 copies in the place of 5,000.

MR. HANSON, said he was persuaded the information communicated in the Message had awakened but one feeling throughout the House, and stamped the same impression on every member. It had always been his opinion that it became not this government to stand on idle frivolous etiquette—but to speak to the enemy, if indeed we desired to convert him to a friend, to speak to him frankly, plainly and directly, to the end that all ground for his doubting our sincerity might be removed. He trusted that it would appear that our Commissioners had been instructed so to speak, and that they had so spoken. If then, on fair and honorable terms proposed, England should have denied us Peace—if other & new claims had been set up—if she has attempted to annex degrading and humiliating conditions—if she has presumed to trench upon our ascertained rights as hitherto acknowledged and enjoyed—from that moment Mr. H's determination had long since been formed to unite in supporting the most vigorous system of honorable war, with the hope of bringing the enemy to a sense of justice. Mr. H. was satisfied that nothing more was necessary to make the war national, than to convince the people that an honest and fair effort had been made to obtain peace, and it had been denied upon terms mutually honorable. From that moment it ceased to be a party war, and of necessity became national. Mr. H. said he too well knew the party, with which it had been his pride and happiness to act, to doubt of their determining to bear a just share of the sacrifices to be incurred in defending the honor of the nation in a war that becomes just. Forgetting, *as far as possible*, their objections to the administration—stifling their complaints as far as might be, against the party that supports it—sacrificing all minor considerations—endeavouring to bury in oblivion the numerous wrongs inflicted upon their party—omitting, to every proper extent, a retrospect of the past and looking to the present and the future, for the purpose of staunching the bleeding wounds of their country, they would stand forth in this her hour of peril, in asserting and maintaining her established rights and honor. But, sir, said Mr. H. while we have ever been ready to sacrifice our political feelings upon the altar of our country, the sacred duty we owe to it will require of us never to cease insisting on a reform in the measures of the government, and the choice of honorable and enlightened men, competent to conduct its affairs in a crisis so awful. Unfortunately for the country, the character of the men who now directed its destinies was not of this description, nor did they possess the confidence of the nation.

MR. OAKLEY, (of N. Y.) said that it was not necessary for him on this occasion to reiterate the sentiments of his honorable friend, Mr. Hanson. His friend, he was confident, had expressed the feelings and opinions of those gentlemen with whom he was accustomed to act, on the nature and character of the demands and pretensions of the British government, as developed in the despatches just read to the House. He did not hesitate, in the fullest manner, to declare that those demands and pretensions were utterly inadmissible under any circumstances. But, Mr. O. said, while he made this declaration, and while he felt, in common with all gentlemen, the conviction that there could be but one sentiment in the nation, as to the necessity of resisting, by all the means in our power, the unjust and arrogant claims of the enemy, he felt bound to remark, that he could never forget by whom and upon what grounds the nation had been involved in this war—upon the issue of which were now staked the essential rights and honor of the country. The character given by the enemy to the war, had put at hazard these rights and that honor, and they must now be vindicated at an incalculable expense of treasure and blood. Mr. O. said it was notorious, that at the commencement of the war, a great portion of the people of this country thought it rash and unnecessary. If the administration had been willing to make peace on terms which could be expected to unite the approbation of the nation, they must have been prepared to abandon some of the grounds on which it had been declared. Their conduct in the late negociation, could not be properly estimated until the instructions to our commissioners are laid before the House. This Mr. O. said he perceived was to be done. It would then appear how far they had thought it important to maintain the grounds on which they had deemed it expedient to commence a war—the conclusion of which was ~~~ now within their controul and appeared to be removed to a hopeless distance.

Mr. O. said, it was indispensably to the safety of the nation, that its affairs at this awful crisis should be committed to the management of men who could reasonably be expected to unite the confidence of the nation—and who, when they had compelled the enemy to abandon his unjust and insulting pretensions, would not throw new obstacles in the way of peace, by setting up any unwarrantable claims on our part. He would tell gentlemen in sober earnestness that a war, which, to be successful must be waged by the united means and vigour of the nation could never be conducted to an honourable issue by a *party administration*.

Besides the above remarks, of Mr. Hanson and Mr. Oakley, which are reported with critical correctness—

A few remarks were made by Mr. Forsyth, of Geo. and Mr. Wright, of Md. the first acquiescing in Mr. Hanson's motion, and the second approving the spirit of the remarks of his coleague, Mr. Hanson.

The motion to print 10000 was agreed to.

WASHINGTON CITY, *Oct.* 19.

IMPORTANT REPORT.

A Report from the Treasury Department was yesterday laid before the House of Representatives, from the pen of the new Secretary, Mr. Dallas. The deep interest of the subject of the letter, gave a point to the attention with which the maiden report of a public officer is generally received. That attention was well bestowed on the present occasion, on a copious report, of great ability as to the matter, and precision and perspicuity as to the style.

Not having room to-day to publish the report, a faint outline will give the reader a general idea of its nature. The present wants of the nation, the inadequacy of its present means of defraying them, and the depreciation of the publick credit, are frankly exposed; the necessity for a prompt application of a remedy is stated, the extensive resources of the nation developed, and the remedy which he approves is presented in strong lines. The two principal features are, 1. A considerable increase of the present direct and internal taxes, and the imposition of additional internal taxes calculated to produce 7 or 8 millions a year, in order with the proceeds of the present revenue to establish a solid basis which will support the public faith in unbroken strength.—2. A bold recommendation of the establishment (at Philadelphia) of a National Bank, of a Capital of Fifty Millions of Dollars, two thirds of the Capital to be subscribed by individuals, the remainder by the U. States—payments on the stock to be made partly in specie, partly in stock of the U. States at 6 per cent. &c. —the bank to be obliged by law to loan to the U. States, when required, at an interest of 6 per cent. any sum not exceeding thirty millions of dollars. Such are the most prominent features of this important report.

The following insolent paper, together with some others of a similar character, were issued by the British col. Nicholls, before he was so cruelly beaten at Mobile:

H-Quarters, Pensacola, Aug 31.

Sir—I have arrived in the Floridas for the purpose of annoying the only enemy G. Britain has in the world. As France and England are now friends, I call on you and your followers to enter the service of G. B in which you shall have the rank of captain. Lands will be given you all, in proportion to your respective ranks, on a peace taking place; and I invite you on the following terms: your property shall be guaranteed to you, and your person protected. In return for which, I ask you to cease hostilities against Spain or the allies of G. B. Your ships and vessels to be placed under the orders of the commanding officer on this station until the commander in chief's pleasure is known.

I enclose you a copy of my proclamation to the inhabitants of Louisiana which will I trust point out to you the honorable intentions of my government; you may be a useful assistant to me in forwarding them, therefore if you determine, lose no time; the bearer of this, captain Williams, will satisfy you on any other points, as will capt. Lockyer, of the Sophie, who carries him to you. We have a powerful reinforcement on its way here, and I hope to cut out some other work for the Americans than oppressing the inhabitants of Louisiana. Be expeditious in your resolves and rely on the verity of

Your humble sevt.

E. NICOLLS, *Lt. Col. com'g. &c.*

To Mons. Lafitte, com'dt. at Barataria.

By Lt. col. NICOLLS, *com'g. H. B. M's. forces in the Floridas.*

Natives of Louisiana—on you the first call is made to assist in liberating from a faithless imbecile government, your paternal soil. Spaniards, Frenchmen, Italians and British, on you also I call to aid me in this just cause. The American usurpation in this country, must be abolished, and the lawful owners of this soil put in possession. I am at the head of a large body of Indians, well armed, disciplined and commanded by British officers—a good train of artillery with every requisite, seconded by the aid of a numerous squadron of ships and vessels of war. Be not alarmed at our approach, the same good faith which distinguished the conduct of Britons in Europe accompanies them here. You will have no fear of litigous taxes imposed on you for carrying on an unjust war; your property, the peace and tranquility of your country, will be guaranteed to you by men who will suffer no infringement of theirs; rest assured that these brave men only burn with a desire of satisfaction, for the many wrongs they have suffered from the Americans, to join you in liberating these Southern frontiers from their yoke. The Indians have pledged themselves in the most solemn manner, not to injure the persons or properties of any but enemies to their Spanish or English fathers. A flag over any door, whether Spanish British or French, will be a certain protection. Nor dare any Indian put his foot on the threshold thereof, under the penalty of death from his own countrymen. Not even an enemy will an Indian put to death, except resisting in arms, and as for injuring helpless women & children, the red men by their good conduct and treatment to them, will if it be possible, make the Americans blush for their more than inhuman conduct, lately on Escambia, and within a neutral territory.

Inhabitants of Kentucky, you have too long borne with grievous impositions.—The whole brunt of the war has fallen on your brave sons; be imposed on no more; but either range yourselves under the standard of your forefathers, or observe a strict neutrality. If you comply with either of these offers, whatever provisions you send down, will be paid for in dollars, and the safety of the persons bringing it, as well as the free navigation of the Mississippi, guaranteed to you.—Men of Kentucky, let me call to your view (and I trust to your abhorrence) the conduct of those factions, which hurried you into this cruel, unjust and unnatural war, at a time when Great-Britain was straining every nerve in defence of her own, and the liberties of the world; when the bravest of her sons were fighting and bleeding in so sacred a cause; when she was spending millions of her treasure in endeavouring to pull down one of the most formidable and dangerous tyrants that ever disgraced the form of man!—when groaning Europe was almost in her last gasp, when Britains alone shewed an undaunted front, basely did those assassins endeavor to stab her from the rear. She has turned on them, renovated from the bloody but successful struggle. Europe is happy and free, and she now hastens justly to avenge the unprovoked insults. Shew them that you are not collectively unjust, leave that contemptible few to shift for themselves; let those *slaves of the tyrant* send an embassy to Elba, and *implore his aid*; but let every honest, upright American spurn them with merited contempt. After the experience of twenty-one years can you any longer support those brawlers for liberty, who call it freedom, and when themselves are free, be no longer their dupes, accept of my offer; every offer, every thing I have promised in this paper, I guarantee to you on the sacred honor of a British officer.

Given under my hand at my Head-Quarters, Pensacola, this 29th of August, 1814

Late from Com. Chauncey's Fleet

Extract of a letter from a gentleman on board Commodore Chauncey's fleet, dated,

" *U. S. ship Superior, Oct.* 6.

" We have been cruising off and on the enemy's coast ever since we have been out; very frequently before Kingston, even so close as to see the inhabitants walking along the streets; but nothing could induce the enemy to come out. They have now their large ship launched and over the bar. A few days since a boat belonging to our spy, and capt Dixon, who have got a privateer's commission, took 6 boats loaded with rum, brandy, gin, &c but whether they were smuggling, or belonging to the enemy, I do not know. The commodore ordered them into Sackett's Harbor.

" Com CHAUNCEY went in his gig this morning to the Harbor, to see about having every thing in readiness for the fleet to lay up for the winter."

NEW YORK, *October* 13.

We have seen a letter from an American gentleman of the highest respectability, in Paris, to his friend in this city, dated 17th Aug. which expresses considerable apprehensions for the safety of New York, if peace be not concluded at Ghent, and he has no expectation that it will be. Lord HILL has declared at a public dinner that "*the force under his command was amply sufficient to chastise the Yankees, and bring the war to a speedy termination*," and, in this temper, he would probably set out from Cork, early in September, with 14,000 disciplined men, upon his chastising expedition—directing his efforts against the 3 southern states.

U. STATES SLOOP OF WAR PEACOCK.

A gentleman, who came from Halifax in the Analostan informs that Irish papers to the middle of August had been received there. These papers contain information that prisoners had been landed from a vessel captured by the U. S. sloop of war Peacock, who stated that while they were on board the Peacock, she fell in with a British sloop of war, supposed to be the Columbine of 18 guns —engaged her, and SUNK HER, with every person on board, after an action of 15 minutes.

Bost. paper.

The Vermont Legislature met at Montpelier, on the 13th Oct. A gentleman arrived in town last evening, says, that the federal members to Congress, & the councellors of that state, had been declared elected, by handsome majorities —that gov. CHITTENDEN, had a number more votes than Mr. Galusha; but owing, to the scattering votes, there was no choice by the people. Gov. C. will be re-elected by a considerable majority in the two branches of the legislature.

CONGRESS.

The late act of open imbecility of Mr. Madison in refusing to support the Secretary of war in the exercise of his legitimate authority, against the dictation of a cowardly mob, must be productive of one good consequence. Congress can no longer excuse themselves in neglecting their duty on the score of presidential recommendation. It should now be regarded as treason for them to wait for the President's recommendation in any thing. The people rely on congress only, and not on the President.

October 19.

A passenger in last evening's accommodation stage from Boston, informed us, that the private armed brig Yankee, Capt. Jenks, of Bristol, (R. I.) had arrived at Providence, from a cruize of 10 days, and brought in with her a British transport ship, having on board FIVE HUNDRED TROOPS, which she captured after a short action in which the Yankee lost about 10 men.

The transport was captured near Halifax, and was separated from her convoy.

October 20.

The steam boat, which arrived yesterday morning, brings a report that the enemy's fleet, including the large ship, has got out of Kingston, and is cruizing on the Lake. Our fleet is in Sackett's Harbour.

The privateer Prince of Neufchatel, which has arrived at Boston, has bro't in a cargo of immense value, and her cruize has been the most brilliant of any one since the war. She has made 18 prizes on her homeward cruize, some of which were burnt, some given up to the prisoners, and the remainder manned. The five barges from the Endymion which attacked the Prince of Neufchatel, were all taken. The prize ship mentioned in our last, said to have gone ashore at Nantucket shoals, is the Douglass, from Jamaica, laden with rum, sugar, &c. valued at 4 or 500,000 dollars. It is said she has arrived at Havana; she was not ashore at Nantucket, but was at anchor, and had 2 pilots on board.

ALBANY, *October* 17.

Extract of a letter from an officer at Sackett's Harbour, to a gentleman in this city, dated October 12.

" We are still fortifying this post with breastworks, that surround the whole Harbour, and a new battery that will mount sixteen 44's. We are in daily expectation of an attack from the enemy by land and water. The fleet is in port. I think this post can be defended against any force the enemy can bring against us. The force at this post is about 4000 militia and 1000 regulars, and a large force of militia coming on, some of which have already arrived. Gen. Collins arrived some time since, and has assumed the command of the whole, being the senior officer.

TRENTON, (*N. J.*) *Oct.* 17.

NEW JERSEY ELECTION.

From the intelligence we have received, the advocates of war have carried the election as to the majority in the state Legislature and the members of the next Congress. In Hunterdon, the war men have succeeded by a majority of 120 and in Monmouth by 30 or 40. Upon these two counties the Friends of Peace chiefly relied to turn the scale in the state legislature. They were both democratic last year, the first by a majority of 260, and the latter by about 300.

The old Federal counties, from the best information, have returned full representations by increased majorities. In Gloucester, we understand, the change in favor of Peace has been very great, running np the majority to between 5 and 600.

THE PITTSBURGH GAZETTE.

WEDNESDAY, OCTOBER 26, 1814.

The President of the United States on the 14th inst. transmitted to congress, copies of the instructions given by the government to our commissioners at Ghent. They were read with closed doors—the whole, with the exception of a few passages, deemed improper for publication were ordered to be printed. Their great length precludes their entire publication in the Gazette. The following *outline*, however, taken from the Washington City Gazette, is substantially correct.

"The chief points enumerated, are those of blockades and impressment.

With respect to blockades, as the British had declared their intention of always stationing a force before an invested place sufficiently strong to render the blockade lawful; and had, moreover, revoked the orders in council; the U. S. were willing to wave that topic; our commissioners at the same time, being instructed to procure a more exact definition of blockade to be inserted in the treaty, if practicable.

On the subject of impressment, the U. States proposed to give vigorous effect to the act of Congress for preventing foreign seamen from being employed on board American vessels, public or private.

The president, in addition, was willing in order to give greater force to the congressional act, to compel foreigners, desirous of becoming naturalized, to report themselves in court, once in each of the five years of required probation, so as to *hinder* alien seamen, from becoming naturalized at all, except they relinquished the seafaring life for 5 years, in which time, it is presumed, their habits would be broken.

The president further offered:—1 Reciprocally to allow by treaty, the employment of the seamen of the one party by the other.

2. Reciprocally to prohibit, by treaty, the employment of the seamen of the one party by the other.

3. Or, to adopt any efficient precautions, or provisions, which ought to be suggested by G. B. and were not repugnant to the constitution of the U. S. for totally excluding British seamen, from our ships public and private: and Mr. Monroe remarks, that it is a growing sentiment in the U. S that we ought to rely on ourselves for the supply of seamen necessary to our navigation & commerce.

In other respects it appears, from Mr. *Monroe's* letters, that the U. S. claimed indemnity for various classes of spoliations of American property, seized and condemned under different pretexts, all contrary to the law of nations.

By the letters of this message of a date subsequent to the peace between France, G. Britain, and the continental powers of Europe generally, it appears, that, impressment of our citizens having been relinquished in practice, the U. S. were willing to wave discussion on that head, reserving the right to resist it again if resorted to."

In the Senate of Massachusetts, on the 8th of October, the committee to whom was referred the message of the governor, with the accompanying documents, made report. Its length precludes our inserting it in the Gazette.—It breathes the spirit of Old Massachusetts, is dignified and patriotic. The following resolutions are attached to the report:—

Resolved, That the calamities of war being now brought home to the territory of this commonwealth; a portion of it *being in the* occupation of the enemy, our sea-coast and rivers being invaded in several places, and in all exposed to immediate danger; the people of Massachusetts are impelled by the duty of self-defence, and by all the feelings and attachments which bind good citizens to their country, to unite in the most vigorous measures for defending the state and expelling the invader, and no party feelings, or political dissentions can ever interfere with the discharge of this exalted duty.

Resolved, That provision be made by law for raising by voluntary enlistment for twelve months or during the war, a number of troops not exceeding ten thousand, to be organized and officered by the governor, for the defence of the state.

Resolved, That the governor be authorised to accept the services of any volunteers, and to organize them as a part of the aforesaid troops, who shall hold themselves in readiness to march at a moment's warning to any part of the commonwealth, who shall be entitled to full pay and rations, when in actual service, and to a just compensation short of full pay, to be provided by law, during the entire term of their enlistment.

Resolved, That the governor be authorised to borrow from time to time a sum not exceeding one million of dollars, at an interest not exceeding six per cent. and that the faith of this government be pledged to provide funds at the next session of this legislature at farthest for the payment of the interest on the sums borrowed.

Resolved, That persons be appointed as delegates from this legislature to meet and confer with delegates from the states of New-England, or any of them, upon the subject of their public grievances and concerns, and upon the best means of preserving our resources, and of defence against the enemy, and to devise and suggest for adoption by those respective states, such measures as they may deem expedient; and also to take measures, if they shall think proper for procuring a convention of delegates from all the United States, in order to revise the constitution thereof, and more effectually to secure the support and attachment of *all* the people, by placing *all* upon the basis of fair representation.

Resolved, That a circular letter from this legislature, signed by the president of the senate, and speaker of the house of representatives, be addressed to the executive government of each of said states, to be communicated to their legislatures, explaining the objects of the proposed conference, and inviting them to concur in sending delegates thereto.

Resolved, That on the day of inst. this legislature will, by joint ballot, elect persons to meet such delegates as may be appointed by the said states, or either of them at in the state of

Which having been read from the chair, was ordered to be taken into consideration on Tuesday next; and printed for the use of the members.

The report was also read in the house of representatives, and Wednesday next assigned for consideration.

SYNOPSIS OF
FOREIGN AND DOMESTIC NEWS.

The legislature of Vermont have it in contemplation to grant Com. M'Donough, a township of land, in some commanding situation that shall overlook the Lake where his action was fought, and to erect a pillar thereon, consecrating the naval victory of the 11th September, achieved by this youthful hero.

The corporation of the city of Albany have granted to the Commodore a building lot on the Washington Square in that city.

G. W. Erving, late special minister to Denmark, is appointed minister to the court of Spain.

The proposition for the removal of the seat of government from Washington, has been negatived in the House of Representatives by a majority of 9 votes.

350 of the brave seamen of M'Donough's squadron, have volunteered for Ontario, and proceeded to Sackett's Harbour.

Five of the enemy's boats have been captured on Ontario, having on board, goods belonging to the north-west company, valued at $ 12,000.

The secretary of war has ordered 2500 of the drafted militia of Kentucky, to be marched to Gen. Jackson, and placed under his command without delay.

2000 volunteers from Tennessee under the command of Gen. Coffee, have marched to the assistance of Gen. Jackson.

On the 10th inst. at the circuit court sitting in the city of Albany, a cause came on for trial between a Mr. James M'Conell and Major General Wade Hampton. The prominent facts which appeared on trial were these:—While our army at the north, was under the command of Gen. Hampton last autumn, M'Conell, who is said to be a worthy citizen, learnt that the enemy had received reinforcements; thinking it his duty, he communicated it to the General, when the General told him with the most violent imprecations, that his information was false, he was a traitor, and should be hung. He was then dragged to the guard house, confined five or six days, compelled to lay on the damp ground and to subsist on the most filthy rations. The General then called together some of his officers, styled them a court martial, appeared as the accuser, and insisted on their condemning him to death as a traitor. The unfortunate man was, however, discharged. It appeared that the information he had given the General proved to be true, and that the only reason for this procedure was a private pique against M'Conell. The counsel for the General offered nothing to contradict these facts, or mitigate this monstrous outrage. The jury retired a few minutes, and returned with a verdict for the plaintiff of $ 9,000 damages.

The Washington, 74, built at Portsmouth, N. H. under the superintendance of Capt. Hull, was safely launched on the 1st instant

Simon Snyder, Governor of this Commonwealth, was married on the 16th inst. to Mrs. Mary Scott, of Harrisburgh.

The enemy since his late discomfiture at Plattsburgh, appears much *chagrined*, and are unwilling to relinquish the command of the Lake—accounts from Burlington state, that they have commenced building an addition to their navy, and laid the keel of *two large vessels* at the *Isle au Nois*.

A petition to the Prince Regent for the recal of Gov. Prevost, and the alteration of the constitution is circulating in Canada. The Governor, since his disgraceful retreat from Plattsburgh, has become very unpopular.

The accomplished scoundrel who figured in great style at the city of Washington, a few years ago, under the name of the *Count de Crillon*, and made a dupe of our *wise* President and a number of our *grave* Senators, has been pronounced an imposter by the legitimate members of that honorable family, whose name he assumed. He arrived in this country with the notorious John Henry of 50,000 *dollar memory*, and at present, (as appears from a publication of the real Count) is playing some of his old tricks in Great-Britain.

Capt. Dacres, formerly of the Guerriere, has been appointed to the command of the Tiber, a new frigate, rated at 38 guns.

Died, at Brighton, (Eng.) on the 5th of August last, in the 44th year of his age, Francis James Jackson, late envoy extraordinary and minister plenipotentiary to this country.

Charles the 4th of Spain, has published from Rome, that the instrument purporting to be the abdication of his throne, was a forgery; and that his claims to it will be supported by the Pope and Louis the 18th. The nobles are said to be flying to Charles

The duke of Berri, one of the Bourbon princes, had arrived in England with a formal invitation to the Prince Regent to be present at the coronation of Louis 18th at Paris; but the regency law would not permit the prince to accept it.

Bonaparte has hoisted his flag at the Island of Elba, which is a white ground with a red border, a blue field with three bees in the centre.

The plague rages with great violence at Smyrna, and has carried off 30,000 persons. There were instances of 1060 deaths per day.

From the Buffalo Gazette, of Tuesday, October 18.

Since our last, about 800 Light Dragoons, Artillerists and Infantry have passed this for the northern army, in Canada.

Brig. Gen. Winder, and suite, Col. Fenwick, and many other officers have also passed on.

On Monday week, the army of Major General Izard's, moved from Lewiston and crossed the Niagara at Black Rock. The General when joined by the distinguished army of maj. gen. Brown, passed down the Niagara.

The following extract of a letter is all the direct intelligence we have from the army. We, however, learnt from the bearer of the letter, that preparations were complete for crossing the Chippewa yesterday morning:

Extract of a letter to the Editor of the Buffalo Gazette, dated

"*Chippewa Plains, Oct. 16.*

"You may have heard of the firing at Chippewa yesterday. The occasion was simply this: our artillery was advanced to a point of wood, within about 300 y'ds, of their works, and opened upon them; they returned the fire from 4 different batteries, which were constrained to slow firing, for about an hour, and then silenced. They drew back the principal part of their troops, and after loosing a few men and horses, hid the rest."

POSTSCRIPT.

BY THIS DAY'S EXPRESS.

FROM BUFFALO.

A Letter from a gentleman at Buffalo, dated Oct. 22, received by the express of to-day, says—"The army under major gen. Izard, is expected to return to fort Erie, in a day or two, without having accomplished the object of the expedition. The season has already set in very cold, and as the army, for the sake of expedition, moved with but two tents to a company, almost all the men have to lay out in the snow and rain. The sick are constantly brought up to this place, and last evening general Brown, arrived at this place."

GENUINE FAMILY MEDICINES.

BOSLER & Co.

Front Street, between Market & Wood Streets, PITTSBURGH,

HAVE just received from *Lee's Patent and Family Medicine Store*, New York, a fresh supply of the following

GENUINE MEDICINES.

For the prevention and cure of Bilious and Malignant Fevers is recommended

HAHN'S ANTI-BILIOUS PILLS.

The operation of these Pills is very mild, so as to be used by persons in all situations, and of every age.

They are well adapted to carry off superfluous bile, and prevent its morbid secretions, to restore the appetite, to produce a free perspiration, and thus prevent Colds, which are often of fatal consequences. A dose never fails to remove a Cold, if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured for use by every seaman.

HAMILTON'S

WORM DESTROYING LOZENGES,

Which have, within years past, cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from Worms, and from obstructions or foulness in the stomach and bowels.

This Medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age & constitution. It contains nothing but what is perfectly innocent, and so mild in its operation that it cannot injure the most delicate pregnant lady, or an infant of a week old, should no worms exist in the body; but will, without pain, cleanse the stomach and bowels, of whatever is foul, and and thereby prevent the production of worms, and many fatal disorders. The Lozenges are efficacious in taking off all gross humors and eruptions, feverish complaints, and the safest and mildest purgative that can be used on any occasian.

A dose of this medicine given occasionally during the warm season, will prevent "the vomiting and purging of children"—a disorder which annually destroys thousands of the infant part of our citizens. It is also the mildest and most certain remedy known, and has restored to health and strength a vast number when in advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in suoh cases.

Children generally take this medicine with eagerness; having a pleasing appearance and a mild taste.

HAMILTON'S ESSENCE & EXTRACT OF MURTARD,

A safe & effectual remedy for rheumatisms, gout, palsey, sprains and bruises, white swellings, old strains and relaxations, numbers and weakness of the neck, pains of the side, head ache, swelled faces, frozen limbs and every similar complaint. It prevents chilblains or chopped hands, and the ill effects of getting the feet wet.

THE DAMASK LIP SALVE.

THE RESTORATIVE POWDER FOR THE TEETH AND GUMS.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and the foulness, which if suffered to occumulate never fails to injure and finally ruin them.

HAMILTON'S

GRAND RESTORATIVE,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution the immoderate use of tea, frequent intoxication and destructive intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR,

Celebrated for the cure of colds, obstinate coughs, asthmas, and approaching consumptions, and a certain remedy for the whooping cough.

HAHN'S GENUINE EYE WATER.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

TOOTH ACHE DROPS.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

LEE'S OINTMENT FOR THE ITCH.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

LEE'S INFALLIBLE

AGUE AND FEVER DROPS.

For the cure of agues, remittent and intermittent fevers.

HAHN'S

TRUE AND GENUINE GERMAN

CORN PLAISTER.

DOCTOR HANDY'S,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

Doctor CHISHOLM'S

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

NOW prepared from a recipe of the celebrated *Dr Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery, Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

J. P. & J. W. Skelton,

At their Wholesale and Retail Apothecary and Drug Store.

BRIGHTON IRON WORKS

FOR SALE.

THIS elegant establishment consists of a *Furnace, Forge, Grist* and *Saw Mill*, together with extensive Coal, Store and Dwelling Houses, situate at the middle falls of Big Beaver creek, one mile from navigable water, 3 miles from the Ohio, 3 miles from the town of Beaver, and 28 miles from Pittsburgh. The Grist and Saw Mill are now usefully employed, and can be made very productive at a small expence. The Furnace and Forge are equal to any in the western country. The scite for water works comprises advantages equal if not superior to any on the Brandywine. The adjacent country abounds with ore, fuel and provisions, and the facility of transportation by water from the works to every part of the western country promises a sure and steady market for all its productions. The works are well supplied with first rate forge and furnace hands. The forge is now in operation, and the usual number of hands and teams are constantly employed in providing stock for a new blast, which it is intended shall take place about the 1st of March next, whether sold or not. The casting house is spacious and well suplied with flasks, patterns, and other requisite articles.—Possession can be given either before or after the first of March, as may be agreed upon, a fair price being given for the stock on hand.

ALSO FOR SALE.

A valuable Tract of Land on the east side of the creek, opposite the Iron Works, affording a scite for water works equal to any on the creek, on which is erected a Grist Mill and two Dwelling Houses, and a small Farm opened.—The whole of this property will be sold together or separate as may best suit the purchaser, and the terms made easy.
